## District Manager Spotlight: Patty Bittle

The Rising Star Award recipient is US Storage Centers - Chatsworth - Plummer! They have been able to grow their donations from \$97/month to \$198/month in 2019. Funding cancer research plays an important role to many of US Storage Centers Managers. Patty Bittle, Chatsworth - Plummer Facility Manager, explains

"Finding a cure for cancer is very important to me. My maternal Aunt Joan died of breast cancer in 1982. One of her daughters, Molle, is a breast cancer survivor and a 2nd daughter, Sarah is still battling breast cancer. One of my sisters, Ginny, died of breast cancer 10/31/2016. I have a second sister, Connie, battling stage 4 breast cancer now. My best friend, Crescentia, died of breast cancer when we were 41 years old. I know if we find a cure for one cancer we will eventually find a cure for all cancers."

Thank you Patty for sharing your story and passion for finding a cure, together we can eradicate cancer!
